Hi Kelly. I hope you are doing well too! I will look on my computer for related info. There is a hard file in my office as well. I'll look in there for related info as soon as I can back in. Stay safe.

Hi Scott - I hope you are doing well.  
I checked several places in the PCB folder and could not find anything for Cressona or Hydro Extrusions.  
Please share any electronic documents you find with me and I will put them in the PCB folder.

If there is any other electronic PCB cleanup files that you may have on your personal drive please also share with the PCB program.

Thanks

Praying that this virus flatlines fast!

Hi Barbara. I'll take a look and see if I can find it. I'm having problems getting on the share drives right now. I might also have a hard copy in the office.

Thanks Scott ! Do you or Kelly have the original Consent Decree (or Order) that EPA issued this Facility back in the early 90's, when it was Cressona Aluminum Company? If so, could you send it to me? This is not a Corrective Action Site, where we would ask or at least know why the petroleum/PCBs and DNAPL disappeared over time. I imagine there was a removal action or some other GW treatment. Thanks. -BarbS.

Barbara – A direction for the facility is to come from our Branch.

Scott – We would like your reaction to Barbara's recommendation (of changes beyond what they requested) based on your site history.

Kelly - How we would go about getting back to the facility responding to this request? Is this a plan amendment/submittal/approval

Hi Scott –

I hope you are having a good Monday. I've attached my review of the GW Report. My manager, Luis Pizarro requested that I review it and provide you with any comments regarding the Facility's request to reduce groundwater monitoring. My comments support reduction in monitoring. If you would like to discuss this Facility and/or my comments, please reach out to me, and we'll talk.
